DATA QUALITY SPECIALISTS

Intreau^{⚙️}

In-sourcing all your data needs

In-house.
In-control.

Works every
which way.

It's fast.
Really fast.

No monthly
fees.

Powerful
but simple.

State-of-the-art data processing software that puts you firmly in control of your data hygiene

If you are using “**bureau in a box**” software and are **frustrated** by slow data processing speeds and paying high royalties for suppression data, then perhaps it's time to re-evaluate? With **Intreau**, there are no annual or monthly licence fees, and even the most complicated data processing jobs can be set up and run in-house. Our charges for deceased and gone-away suppressions are amongst the lowest in the market, significantly reducing your spend on suppression royalties.

Its sophisticated software brings advanced bureau capabilities to your desktop, and the unique services it provides could revolutionise your business. Running at speeds of up to 10 million records per hour, it's fast, even on high data volumes. **Intreau's** intuitive design is user-friendly and accessible whatever your level of technical expertise. **Intreau's** workflows can be fully automated, reducing the time it takes to process data and freeing up your valuable resources for more important tasks.

Intreau[⚙]

Why choose Intreau?

Key features of our game
changing software at a glance:

Super-fast

Watch your data processing **speeds increase by up to 70%**, even on large volumes of data.

Highly Sophisticated

No limit to the complexity of job workflows that can be set up or the level of detail with which you can choose to manage each process.

Easy to Use

Accessible and user-friendly, whatever your level of technology know-how. Set up and run complex data processing jobs quickly and easily.

Visual Interface

Visualises each processing job step-by-step making results clear and easy to read and allowing you to quickly spot and correct any errors.

Repeatable Workflows

Save your processes and re-run any jobs immediately without the need to re-process.

Comprehensive Coverage

Gives access to a **comprehensive range of suppression and homemover records** including deceased, goneaway, MPS and TPS.

No monthly fees

Intreau offers you a range of licensing models to suit your requirements and budgets. The software can be **licensed** and operated **without installation** or **monthly fees**.

Security Guaranteed

All outsourced records are subject to extremely **high data security** and **quality management** standards, processed in our **ISO27001** certified data centre.

GDPR Compliance

Gain complete control over the quality of your data to **comply with GDPR regulations**.

Service Delivery to Suit You

Choose to process your **data online** or **in-house**, use our interface or integrate using our **API**.

The background of the entire image is a solid blue color. Overlaid on this background are several interlocking gears of different sizes, rendered in a slightly darker shade of blue. In the bottom right corner, there is a faint, dark blue silhouette of a hand reaching towards one of the gears.

Choose how to manage your data needs

With 3 solutions to choose from:

Need to cleanse a single file or your requirements are straightforward?

Intreau LITE is the perfect solution for you. Simply upload your file to our online portal, select the processing services you require and receive instant results. You can even pay online by credit card.

Perhaps your data processing requirements are more complicated?

Intreau ONLINE has intuitive drag and drop functionality to quickly and easily build and run the most complex, bespoke data cleansing jobs from your desktop. Create repeatable workflows for more regular jobs.

You don't want your data to leave the building to be processed?

Intreau IN-HOUSE can be hosted on your own server, giving you complete control over your data cleansing and peace of mind over data security.

Intreau API

In addition to these options you can access all the functionality of **Intreau** by integrating it with your own software solution using our sophisticated APIs – please ask for more details.
